Review Type (e.g., code, usability, design, other): Usability, Design, some Code

Scope:

Artifact Reviewed:

Safety AI - Dietary ChatBot Prototype (Functionality & Database not ready)

Review Objectives:

- Evaluate if this website is actually usable for all consumers.
- Easy to navigate, consistent, readable, and scannable. (Is everything being thrown at you once?)

Methodology:

Approach Taken (e.g., execute, inspect, observe): Observed website structure, attempted navigation without using the mouse.

Evaluation Criteria (e.g., expected behavior, best practices, heuristic evaluation): Accessibility requirements - elements are accessible via tab key for users who cannot use the mouse, such as blind users

Coverage / Limitations (e.g., test login only, ignore database integration): Website is currently lacking functionality, focused on layout and design

Findings

Strengths:

- Elements are visually distinct and easy to digest
- On most pages, elements are accessible via the tab key

Issues / Defects:

Description of Issue	Severity (Low/Med/High)	Evidence / Example	Suggested Fix

Various elements are inaccessible via the tab key	Low	Unable to access preference elements on profile, unable to access recipes on recipe page	Modify how these elements are handled on the webpage
Inconsistent Whitespace	Low	Inconsistent Whitespace when the sidebar is shrunken	Modify how the page centers when the sidebar is toggled/untoggled

Date function	Low	Date should match the current day
		In <10>
		`<p>Tuesday, February 24, 2026</p>`
		
		In <94>
		`defaultValue="2026-02-24"`
			When starting the functionality, just have it match the current day
